CREATES A LANDMARK STALL EXPERIENCE

For Euro Motors

At EV Motor Show 2026

SRI LANKA'S FIRST 3D EXPERIENCE, BROUGHT TO LIFE

At the 2026 EV Motor Show, Emerging Media successfully elevated Euro Motors' brand presence by creating an immersive, high-tech exhibition stall. The project's centerpiece was a massive high-definition LED screen featuring Sri Lanka's first 3D anamorphic visual experience. By managing everything from conceptualization to technical execution, Emerging Media delivered a standout, multi-sensory environment that effectively demonstrated their capability to drive brand equity through innovative experiential marketing.
